

*‘A child with autism is not merely a compilation of symptoms’
‘Exhibited symptoms could be the manifestations of signalling and metabolic
derangements with widespread effects integrally related to what we now call autism’.*

Way back in 2004 by studying the underlying intermediary biological processes we **hypothesized** autism as a *‘Chronic Dynamic Reversible Encephalopathy’*

*DOAST was founded in 2004 with ‘Integrated Therapy’ as a therapeutic technology to
rewire/ reactivate dormant functional areas of brain and achieve functional connectivity and
independent existence in autism.*

The DOAST ‘Integrated therapy’ is a fusion of chosen techniques and medicines from the centuries old medicinal practice of - Yoga, Siddha and Ayurveda - *applied in synergy with the latest findings of mainstream research.*

The concepts of these **ancient Indian therapeutic systems** were in complete synergy with the mainstream technological understanding of chronic disease as cellular stress, molecular disorder, cytokines and signal triggers between body and brain.

Therapeutically **replicated clinical alleviation** of painful GI symptoms and consistently associated improvement in behaviour and cognition were/are the observed positive outcomes in DOAST Integrated Therapy program *spanning 14 years till date.*

Many have blossomed into full-fledged semi-independent teens. **Consistent replication of observed phenotypic data** on individuals thus treated lends validity for our biomedical approach towards autism

BIRTH OF UCOPE – 2018

Now the **families who have achieved cognitive/behavioural coherence through the ‘DOAST Integrated Therapy’ platform** have come together to create a united initiative called UCOPE.

Empowered with more than decade of ‘Integrated Therapy’ a cost-effective treatment methodology, their intention is to establish a unique **Single Roof diagnostic & therapeutic** facility.

By working together to enhance the obtained cognitive/behavioural coherence by ‘value added facilities’, the mission of ‘UCOPE’ Trust is to convert **‘Family confined responsibility’** to **‘Collective Parental Responsibility’**.

UCOPE aims to lessen the anxiety of the parents, by converting the statement **‘my Child’** into **‘our Children’** in at this **ONE STOP institution.**

WE SEEK YOUR HELP IN ABUNDANCE TO NURTURE UCOPE.
